

School Website Development Proposal

Date: 08 January 2026

Executive Summary

This proposal outlines the development of a modern, comprehensive website for Pine Wood English Medium School that will serve as the primary digital platform for students, parents, faculty, and the community.

Project Investment: ₹10,000

Timeline: 6 weeks

Deliverables: Responsive website + Parent & Student Portals

1. Project Objectives

- Establish a professional digital presence reflecting institutional values and academic standards
- Streamline administrative processes through automated systems and self-service portals
- Enhance communication between administration, faculty, parents, and students

2. Website Structure & Features

2.1 Public Website

Home Page: Dynamic carousel, quick links (Calendar, Fee Payment, Results), news ticker, Principal's message, statistics banner, testimonials

3. Technical Specifications

Platform: Using React with custom theme OR modern framework (React/Next.js + Laravel/Node.js backend)

Hosting: Cloud-based (AWS/Google Cloud) with 99.9% uptime, SSL certification, automated daily backups

Design:

- Mobile-first responsive design (320px to 4K screens)
- WCAG 2.1 Level AA accessibility compliance
- Optimised performance (lazy loading, minified code, CDN integration)
- Cross-browser compatible

Security:

- SSL encryption, secure payment gateway (PCI DSS compliant)
- Protection against SQL injection, XSS, and CSRF attacks
- Role-based access control, session timeouts
- Regular security audits

Integrations:

- Social media feeds (Facebook, Instagram, YouTube)
- Email marketing (Mailchimp/SendGrid)
- SMS gateway for alerts
